2013 Pioneer New Audio/Video Products

The elements of connectivity, entertainment, quality and convenience that are essential to Pioneer integrity drive car entertainment on the fast track to perfection.

CONNECTIVITY

Smartphone compatibility with Pioneer's AppRadio™ Mode puts a world of excitement at your fingertips. Bluetooth® Wireless audio streaming makes it easy and intuitive to play music from your smartphone. Dual USB ports conveniently connect and charge your external devices.

ENTERTAINMENT

Your car audio experience comes to new life with an unprecedented choice of content and control. MIXTRAX technology provides club-like ambiance with seamless Non-Stop Mix Playback and mood-enhancing visual effects. Every drive can become an enjoyable journey when its filled with the awesome sound and effects that MIXTRAX and Pioneer provide.

CONVENIENCE

Customize your audio and visual experience with adjustable audio and display functions. Expand your universe of content and playback options with simple menus and an intuitive user interface. Control of your in-car AV entertainment is at the tip of your fingers via Pioneer's large WVGA touch panels.

QUALITY

Pioneer's universal reputation for quality is a strong foundation to build upon with its stylish design and detailed craftsmanship. So is the promise that Pioneer technology continues to overcome the many challenges in the mobile industry. Over 30 years as a leading authority in audio technology keeps Pioneer at the top of the class.

Connectivity

- **Smartphone Connectivity with AppRadio Mode**
  - Fully controls Apps compatible with AppRadio Mode through the display.

- **Connect Multiple Devices and Other Compatible Devices**
  - Dual USB Ports
  - Direct Control for iPod®/iPhone®
  - Direct Control for Certain Android Phones*
  - Built-in SD/SDHC Memory Card Slot
  - RGB Input
  - HDMI Input
  - * Not all Android phones are compatible.

- **Hands-Free Calling for Safer Driving**
  - Hands-Free Calling (HFP)
  - Wireless Audio Streaming/Control (A2DP/AVRCP)
  - Easy Pairing (SSP)
  - Serial Port (SPP)

Entertainment

- **New Music Experience**
  - MIXTRAX — Innovative Pioneer technology that creates a Non-Stop MIX with a range of DJ-inspired effects.

Convenience

- **Easy Interface: Fun and Convenient**

Point 1

[NEW] **■ A Revolutionary Way to Use Apps in the Car**

Pioneer's game-changing AVH-X8550BT revolutionizes the driver's smartphone experience by bringing compatible iPhone 5, iPhone 4, iPhone 4S, 4th/5th generation iPod touch, or Android phone* apps to your dash. When connected to an iPhone 5, iPhone 4, iPhone 4S, 4th/5th generation iPod touch, or Android phone* loaded with applications compatible with AppRadio Mode, the AVH-X8550BT in-dash receiver provides the ultimate in-vehicle smartphone experience.

Not all Android phones are compatible.

AppRadio MODE · Made for iPod iPhone · Smartphone Compatible

■ How AppRadio Mode Works

AppRadio Mode (iPhone connectivity example shown)

Step 1 — Install the AppRadio app and other 3rd party apps to your iPhone.

Step 2 — After launching the app, connect your iPhone to the receiver using the AppRadio Mode compatible cable. Pressing the "MODE" button lets you change to the AppRadio Mode's Home display screen.

Step 3 — Through the display of the AVH-X8550BT, you can fully control apps compatible with AppRadio Mode.

■ Compatible Apps

Navigation/Travel	iPhone	Android
Waze A cool social GPS driving and navigation app that connects you to other drivers & provides full turn by turn navigation guidance. *Note: An active data connection is required to use this App.*	●	●
NavGate Drive The NavGate Drive makes your Pioneer In-Car receiver change to full function turn by turn navigation.	●	
Navfree Navfree is a completely free GPS navigation app, and map data is created by a community of 1000s of users around the world. *Note: In-App purchase required to activate the AppRadio interface.*	●	●
DashCommand™ Use your touchscreen to create and use stunning virtual dashboards including digital gauges, analog gauges, indicator lights, and more.	●	●
Extra Mile All-in-one app for convenient voice navigation with trip logs and audio feedback to improve your driving performance and conserve fuel.	●	●
Beej Fast, simple and accurate — Beej is the in-vehicle location/navigation application for your AppRadio Mode device. Beej is a great mapping app that quickly identifies your position and allows you to select the nearest bank, bar, gas station, hospital, hotel, restaurant and more (using Google mapping).	●	

Music	iPhone	Android
MIXTRAX Pioneer's proprietary MIXTRAX app can read analyzed music data in your iTunes® library to create custom playlists for non-stop song mixes with added DJ effects.	●	
AUPEO! Personal Radio Safely access, stream and personalize AUPEO!'s 120+ radio stations from your car dashboard.	●	●
StreamS HiFi Radio Internet radio app has a directory of thousands of AAC and HE-AAC streams including AM/FM stations and NET streams.	●	
CarMediaPlayer CarMediaPlayer allows you to swipe, drag, and directly touch the desired artist, song, or album in your music library directly from the Pioneer touchscreen with Alphabet Search and Album View functions.	●	●
7digital Sync and Play your 7digital music from the cloud to your phone. Discover your tracks in the web store or from the App and enjoy them while driving thanks to the cloud syncing feature. Play the other music on your phone as well.		●

Utility	iPhone	Android
EC Touch EC Touch enables drive safe iPod music, Maps, Contacts and TuneIn radio. When parked, Facebook, iPod video and a web viewer are added to the mix. Large icons, simple commands, cover flow and swipe gesturing make it easy and quick to get what you want.	●	
Glympse Safely share your location in real-time via email, SMS, Facebook, or Twitter. Glympse is the easiest way to safely share your location with someone in real time.		●
Maxthon World's fastest & smartest internet browser — fast, secure, free & lightweight.		●
CarBrowser CarBrowser allows you to search and navigate the internet directly from the 6.1" or 7" Pioneer touchscreen while the vehicle's parking brake is engaged.	●	
Photos Swipe through your smartphone photos. Play a slideshow. Personalize your device with your own wallpapers and screensavers.	●	●

As the number of compatible apps continues to increase, please refer to the Pioneer website for the latest information on AppRadio Mode compatible apps.

CD-IH202 [NEW] — **AppRadio Mode HDMI/USB Interface Cable for iPhone 5 or 5th Generation iPod touch** — Required to utilize AppRadio Mode.

CD-AH200 [NEW] — **AppRadio Mode App Connectivity Kit for Android** — Required to utilize AppRadio Mode.

CD-IU201S — **AppRadio Mode USB Interface Cable for iPhone 4, iPhone 4S, or 4th Generation iPod touch** — Required to utilize AppRadio Mode.

APP MODE — **App Mode**
Pioneer's App Mode allows users to access/control App-based content from their iPhone, iPod touch or Android phone and view it on their Pioneer in-dash multimedia receiver.

Video*
Netflix® Netflix is a great service for watching movies and TV shows on demand on a TV or computer.

Operations on a receiver's display are limited in App Mode. Audio/video contents from an iPod or iPhone can only be played with an app that outputs audio/video signals. Not every app is compatible with App Mode.

Important Note: AppRadio app is available from iTunes App Store. Please use in Internet connection situations. AppRadio App & Compatible Apps may not be available in some countries.

MIXTRAX

Point 2

■ How MIXTRAX Works

Music Analysis Info

MIXTRAX Server

Analyzed Music Data

MIXTRAX Software

Analyzed Music Data

AVH-X8550BT

Music Data

MIXTRAX | **MIXTRAX App**

Enjoy full featured non-stop mixes created from your music library analyzed with MIXTRAX software. You can also experience MIXTRAX as an application for the iPhone 5, iPhone 4, iPhone 4S, or 4th/5th generation iPod touch and using AppRadio Mode to control the MIXTRAX app through the receiver's touchscreen display.

MIXTRAX EZ

Experience your music as a simple non-stop mix.

MIXTRAX, MIXTRAX App, and MIXTRAX EZ Comparison

	Advantage	MIXTRAX Software	Compatible Source
MIXTRAX	Full-featured Non-Stop Mix Play*[1]	Compatible	USB Device
			SD Memory Card
MIXTRAX App	Full-featured Non-Stop Mix Play	*[2]	iPhone, iPod touch
MIXTRAX EZ	Quick and Easy Mix Play	—	USB Device
			SD Memory Card
			iPod, iPhone

*1. Requires music analysis by MIXTRAX Software from Pioneer (free download).
*2. Creates playlists using data from the MIXTRAX cloud server.

MIXTRAX Music Analysis

MIXTRAX | **MIXTRAX App**

The MIXTRAX PC software automatically analyzes a track's musical attributes including beats per minute, temp and mood to determine the best transition points for each song. When the analyzed files are transferred to a USB device or SD card, the AVH-X8550BT reads the encoded data, allowing you to enjoy a seamless mix of songs from your own music library. The MIXTRAX App provides similar benefits to the PC software on your iPhone or iPod touch. Utilizing the MIXTRAX App through the AVH-X8550BT's AppRadio Mode function allows the user to view, select, and experience the MIXTRAX mixes directly from the AVH-X8550BT's touchscreen display.
Auto DJ Style Playlist
Music are categorized to some playlist (Beat/Chill/Thump/Distortion/High) for natural Non-Stop MIX Play.

Beat | **Thump** | **High**

MIX Style
Select among three mixing styles of different track time durations and effects in preset three steps.

Standard Style
Song 1 — Effect — Song 2
About **2** minutes — Standard Effect

Simple Style
Song 1 — Effect — Song 2
About **4** minutes — Simple Effect

Active Style
Song 1 — Effect — Song 2
About **1** minute — Active Effect

Beat Matching
• Synchronizing the beat of the music makes for natural Non-Stop Mix Play enjoyment.

Without beat timing matching
Song 1 — Song 2
Music Beat Timing

With beat timing matching
Song 1 — Song 2
Beat matching point

• Smoother beat matching becomes available with songs of different tempo thanks to the new beat alignment algorithm. **NEW**

Song 1 — Song 2 — Beat Alignment — Song 1 — Aligned Beat — Song 2

After song 1 is shifted to the song 2 with the beat matched, the rhythm of song 2 comes back to the original level gradually.

■ Dancing Album Art*

Album Jacket Dance function bounces and gyrates the album art to the music as it plays. Select among five (Blue/Red/Amber/Green/Violet) colors.

* MIXTRAX App and MIXTRAX EZ are not compatible with Dancing Album Art.

Point 4

■ Detachable Face Security™

The extra-thin face panel of the AVH-X8550BT is easy to remove and carry out of the car to deter theft.

DETACHABLE FACE SECURITY.

■ Advanced Display Resolution (ADR)

By incorporating extra-high-resolution technology, even low-resolution moving images can be reproduced as high-quality images.

■ MIXTRAX NEW

The AVH-X7550BT and AVH-X6550DVD provide such DJ-inspired MIXTRAX audio and visual effects as Short Playback Mode and Flashing Color.

- **MIXTRAX EZ for Quick Non-Stop MIX Play**
  Tracks are joined by various random sound effects in Non-Stop MIX Play, and you can experience the intimate euphoria of listening to music that sounds as if a club DJ is there playing it.

- **Short Playback Mode**
  You can choose a length of playback (60, 90, 120, 150, 180 sec., random, or off) to shorten track selections and speed up switching to following tracks in the mix.

- **Flashing Color***
  As MIXTRAX begins, lights starts pulsing to the beat of the music, creating a mood-enhancing dance club-like lighting effect.
  * Can be switched on or off as desired.

- **Selectable Sound Effect**
  A desired special effect sound can be selected in the setting menu.

- **Display Visualizer**
  Generate a buzz with club illumination-style visual effects matching set backgrounds.

Short Playback Mode

* Orange portions indicate playback of each track.

Point 3

■ Auto EQ*

Automatically tailors acoustics by fine-tuning frequency bandwidths plus front/rear speaker digital parametric equalization. Result: smooth sound full of subtle nuance and clarity.
* CD-MC20 required

**CD-MC20**
Microphone for Auto EQ Frequency Band Fine-Tuning

■ Sonic Center Control

Adjusts frequency phase and acoustic characteristics by up to 15 steps for clearer, focused soundstage.

Sonic Center Control

■ Advanced Sound Retriever

Restores sound quality and clarity to your highly compressed MP3, WMA and AAC files.

Original data → Compressed file → Advanced Sound Retriever
Pure Sound!

AVH-3550DVD NEW

In-Dash 1-DIN DVD Multimedia AV Receiver with 7" VGA Touch Display, and Front USB Port

Remote Control Included

7.0W VGA MP3 WMA DIVX DOLBY
MULTI-LANGUAGE DISPLAY
USB
RDS MOSFET 50W x 4
24bit Tuner Ready
Back UP Camera

Main Features

- 7" VGA Touch Panel Display with LED Backlight
- Multi-Language Display (Menu/ID3 Tag)
